## Problem? It's Human Error!

Here's the hard truth:

**95% of cyber security breaches are simple slip-ups, not hacker magic.**

These aren't tiny whoopsies—they're billion-dollar blunders. Tech overload isn't the answer. It's about making your team cyber-sharp.

**That's where we slide in.**

**95%** of cyber breaches are down to **human error**.

Forbes

On average, hackers attack 26 000 times a day, or every 3 seconds.

verizon
